Programmed learning (or programmed instruction) is a research-based system which helps learners work successfully. The method is guided by research done by a variety of applied psychologists and educators. The learning material is in a kind of textbook or teaching machine or computer. The medium presents the material in a logical and tested sequence. The text is in small steps or larger chunks.

After almost 100 total hours of research, interviewing experts, evaluating every model on the market, and testing 12 toothbrushes ourselves in hundreds of trials at the bathroom sink, weâ€™ve found that the Oral-B Pro 1000 is the best electric toothbrush for most people. It has the fewest fancy features of the models we tested, but it does have the most important things experts recommendâ€™a ...

To prevent too much liquid being lost from the child's body, an effective oral rehydration solution can be made using ingredients found in almost every household. One of these drinks should be given to the child every time a watery stool is passed. Ideally these drinks (preferably those that have been boiled) should contain: starches and/or sugars as a source of glucose and energy, some sodium ...
