Urban agriculture, urban farming, or urban gardening is the practice of cultivating, processing and distributing food in or around urban areas. Urban agriculture can also involve animal husbandry, aquaculture, agroforestry, urban beekeeping, and horticulture. These activities occur in peri-urban areas as well, and peri-urban agriculture may have different characteristics.

## **Urban agriculture - Wikipedia**

Pruning is a horticultural and silvicultural practice involving the selective removal of certain parts of a plant, such as branches, buds, or roots. Reasons to prune plants include deadwood removal, shaping (by controlling or redirecting growth), improving or sustaining health, reducing risk from falling branches, preparing nursery specimens for transplanting, and both harvesting and increasing ...

## **Pruning - Wikipedia**

An artichoke plant, which can spread into a silvery green fountain up to 6 feet across, makes a bold, handsome addition to any garden. Best of all, perhaps, this gem of a vegetable can be grown much more easily and in a wider range of climates than you might expect.
