In music, harmony considers the process by which the composition of individual sounds, or superpositions of sounds, is analysed by hearing. Usually, this means simultaneously occurring frequencies, pitches (tones, notes), or chords.. The study of harmony involves chords and their construction and chord progressions and the principles of connection that govern them.

Vowel harmony is a type of long-distance assimilatory phonological process involving vowels that occurs in some languages. A vowel or vowels in a word must be members of the same class (thus "in harmony"). In languages with vowel harmony, there are constraints on which vowels may be found near each other.
