Hi! How can the number of active users be higher than the total number of users? You claim that 11% of the world's population is registered on Facebook (at the time these numbers were originally noted down), yet as of today, almost a year later, 11% of the world's population would amount to a mere 767 million, which is a considerable amount less than the 800 million claimed in the article.

The diesel engine (also known as a compression-ignition or CI engine), named after Rudolf Diesel, is an internal combustion engine in which ignition of the fuel, which is injected into the combustion chamber, is caused by the elevated temperature of the air in the cylinder due to the mechanical compression (adiabatic compression). Diesel engines work by compressing only the air.
