Answers.com © Categories Science Math and Arithmetic Calculus How do astronauts use math in their jobs? ... It's all math! Adding on to all of that, astronauts on Apollo 13 had to figure a lot ...

### **How do astronauts use math in their jobs - Answers.com**

Astronauts use math in order to make precise mathematical calculations, from how the spacecraft leaves Earth's atmosphere to how the astronauts pilot the craft. Designers use math to calculate distance, speed, velocity, and their own safety when creating space-faring vehicles. Potential Employers: Most U.S. astronauts work for the National Aeronautics and Space Administration (NASA). They live and train at the Lyndon B. Johnson Space Center in Houston.

### **Astronaut " WeUseMath.org**

As a modern example, astronauts use math to direct a space shuttle that moves at a speed of 17,500 miles per hour to a space station for a rendezvous. Complex mathematical calculations must be performed so that the two objects moving at high speed can meet at one point without causing damage to each other.

### **How Is Math Used in Astronomy? | Reference.com**

Best Answer: Go to NASA's website and look around. Most of the astronauts are scientists and many are also pilots. Although most shuttle control is by computer, any pilot is expected to do math in their head to check the computer is giving realistic answers. Those who fly aircraft use math and calculators ...

### **i need help on how do Astronauts use math? | Yahoo Answers**

Astronauts use math regularly. We often fly in the T-38 jet for crew coordination training and to travel to other locations for mission training and support. Before every landing, the crew (front seat pilot and back-seater) needs to calculate the landing speed.
