Each account in the chart of accounts is typically assigned a name and a unique number by which it can be identified. (Software for some small businesses may not require account numbers.) Account numbers are often five or more digits in length with each digit representing a division of the company, the department, the type of account, etc.

In accounting, a standard chart of accounts is a numbered list of the accounts that comprise a company's general ledger. Furthermore, the company chart of accounts is basically a filing system for categorizing all of a company's accounts as well as classifying all transactions according to the accounts they affect.
