Balancing Technical and Non-technical Skill Development

The main point in this chapter is that all professional writing is done for specific readers in specific situations, to communicate information that readers will use. The writer's primary purpose is not to express personal feelings or opinions or simply to transmit factual information; instead, the writer's purpose is to shape that information for the particular uses of a specific audience.

Chapter 1: Introduction to Technical Communications

problem with communication is the illusion that it has been accomplished (Shaw, 2011). Four types of barriers (called "noise" see Figure 1) are process barriers, physical barriers, semantic barriers, and psychosocial barriers (Eisenberg, 2010).
