At the beginning of the 20th century, people had great hopes for the future. But the horrors of World War I shattered them. Then came the global misery of World War II, and 100 million dead or disabled. And with it came the atomic bomb. It was a beautiful morning with not a cloud in the sky. The date was August 6, 1945, the time 8:00 a.m.

A few things to be careful of when working with integers. First be sure not to confuse a problem like  $3 \times 8$  with  $3(8)$ . The second problem is a multiplication problem because there is nothing between the 3 and the parenthesis. If there is no operation written in between the parts, then we assume that means we are multiplying.
